

REMARKS/ARGUMENTS

Claims 1 through 7 are pending. By this Amendment, claims 1 and 2 are amended and claims 3-7 are added. Reconsideration in view of the above amendments and the following remarks are respectfully requested.

Claim 2 was rejected under 35 USC §112, second paragraph. By this Amendment, claim 2 is amended to clarify that a total of five annular permanent magnets includes one in each of four corners and one at a center of the shell. Reconsideration and withdrawal of the rejection are respectfully requested.

Claim 1 was rejected under 35 USC §102(b) over CN 1276201. This rejection is respectfully traversed since claim 1 is directed to a dynamic and static magnetic pulse physical therapeutic apparatus which includes, *inter alia*, a dynamic magnetic pulse assembly and a static magnetic pulse assembly that may be used individually or at the same time. CN '201 does not teach or disclose this subject matter since it only teaches the use of a dynamic magnetic pulse assembly.

Reconsideration and withdrawal of the rejection are respectfully requested.

Claims 3-7 are added. Claims 3 and 4 are dependent claims depending from claim 1. Claim 5 is directed to a magnetic pulse physical therapeutic apparatus which includes, *inter alia*, a static magnetic pulse assembly provided at a center of each of the annular permanent magnets. CN '201 does not teach or disclose this subject matter since it only teaches the use of a dynamic magnetic pulse assembly.

Claims 6 and 7 depend from claim 5 and are patentable by virtue of that dependency.

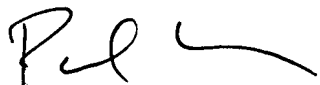

In view of the above amendments and remarks, applicants respectfully submit that all of the claims are patentable and that the entire application is in condition for allowance.

Should the examiner believe that anything further is desired to place the application in better condition for allowance, he is invited to contact the undersigned at the telephone number listed below.
